**NOTE:** Turn-Around Time starts AFTER our receipt of required size/shape chips, check, & form

**I. OBTAIN AND PREPARE CHIPS AS INSTRUCTED BELOW. ALSO SEND ANY PEELS OR BLISTERS FOR OUR ANALYSIS. \*\* INADEQUATE CHIP SIZE REQUIRES NEW CHIPS, DELAYING ANALYSIS.**

- Send at least 3 paint chips (size of a nickel) **down to and including bare concrete.** VERY IMPORTANT!
- Do **not** scrape off paint samples, and do **not** send only peeling top coats.
- Take samples from surface where water has been lowered. Do not take sample from above water line or from areas still submerged under water.
- DO NOT OBTAIN SAMPLES FROM HAIR AND LEAF STRAINER OR SKIMMER BASKETS.
- Safeguard samples by placing them in bubble wrap before placing them in sturdy cardboard or other mailer. Mail priority or overnight, if desired to the address above.

**II. FILL OUT BALANCE OF THIS FORM** to the best of your knowledge or upon qualified advice from your local SAU-SEA DEALER, pool builder, pool service company, or, if applicable, from previous owner of you present home and pool. Enclose this completed form in envelope and mail to us, along with chips, as in I, above.

**TO SPEED OUR CHIP ANALYSIS AND ADVICE:** Give us **all** the requested information you can AND send us sufficient chips to make our tests. The quantity of sample affects our ability to test properly. Insufficient samples will not be processed by lab. Wrap samples in bubble wrap and insert them, **along with this completed form**, in a cardboard envelope to address in box above.
